

# **Rescue Youth Camp Sponsor Packet**

## **Contents**

### Sponsor Guidelines

### Child Protection Training Course Materials

- All adult sponsors must fill out a medical form. You will turn these in along with the student's medical forms and all meds during registration on first day of camp.
- All sponsors must receive and read the Sponsor Guidelines
- All sponsors must complete the Child Protection Training Course, pass the accompanying test and be issued a Certificate of Completion that **MUST** be turned in at registration. \*This is a state law
- All sponsors must have a Criminal Background Check and DPS Sex Offender Database Search performed by the church. These will be kept on file at your church.
- Use the Sponsor Verification Form to complete all background checks per the state requirements. This form states that all sponsors are approved and have completed the necessary trainings and checks. Your church pastor and each sponsor must sign the form. The form, along with the CPT certificate, will be turned in at registration.

*Latham Springs recommends holding a Sponsors Meeting/Training at your church for all sponsors several weeks before camp. This is a great opportunity for the pastor/youth director to lead the Child Protection Training Course as well*

# SPONSORS' GUIDELINES

\*\*Please make a copy of these guidelines and provide them to your sponsors.

You can add more guidelines to suit your needs.\*\*

Being a good sponsor means stepping up to the awesome, **24 hours a day**, responsibility of caring for someone else's children physically, mentally, emotionally and spiritually. A sponsor is acting "Loco Parenti" which means "in the place of parents". This is an opportunity that should be taken with great thought and care.

- I. It is the sponsor's responsibility to ensure their camper(s) do not participate in any activity listed as a limitation on Camper Registration/Medical Release Form (Appendix 1). Sponsors should make sure they are familiar with their camper's registration form and medical needs. Please make yourself aware of HIPAA and how it relates especially to the "Need to Know" privacy aspect of an individual's medical needs.
  
- II. SPONSOR PRIVILEGES are defined by your unique position as both a trusted church leader who is asked to shepherd precious young people and are required to assure health, safety and security for the campers. Privileges include:
  - 1) Parent, teacher, confidant, disciplinarian, staff member and friend to each camper in your group.
  - 2) Represent your church, Latham Springs and the Lord Jesus Christ.
  - 3) To provide an atmosphere conducive to spiritual growth for those who are already Christians.
  - 4) To maintain a prayerful sensitivity that God might call some to special service and then to help them in their response.
  - 5) Guide young people to understand and apply proper Christian relationship principles with their peers and leaders.
  - 6) To make CAMP the most fun experience ever.
  
- III. SPONSOR RESPONSIBILITIES include the primary requirement to assure that the campers in your group cooperate with all of the LSCRC Guidelines.
  - 1) Be vigilant for safety issues 24 hours a day.
  - 2) There is to be NO river or lake access unless LSCRC Personnel are present.
  - 3) Many campers' "sicknesses" are due to not drinking enough water. Encourage three glasses of water or non-caffeine drinks at meals and frequent fluids at activities.
  - 4) Please make yourself aware of correct body spill clean-up methods. LSCRC keeps "Body Spill Clean-up Kits" in the First Aid Station. You can contact the Camp Health Officer or camp staff to obtain a kit.
  - 5) Know each camper in your group by name and foster a spirit of mutual accountability.
  - 6) Sponsors must maintain continuous supervision of their group at all times. **This is a Texas Department of State Health Services requirement.** Supervision is never handed over to Latham Springs staff. This requires cooperation with other sponsors to assure that no camper is overlooked. It is important to know your campers.
  - 7) Please help be good stewards of God's resources at Latham Springs by keeping doors, closed, turning off lights and keeping air conditioner's thermostats **at 72** degrees. It will freeze up and not work at all if you turn it colder.
  - 8) NO ONE is to remain in the cabins/lodges during scheduled activities.
  - 9) Sponsors make sure their students are on time and monitor them during Worship services.
  - 10) Sponsors bed 'em down and shut-em off at "lights out".
  - 11) Seek opportunity early in the week to talk with your campers individually about their relationship with the Lord. If you need assistance ask your church leader or camp staff. It is best not to talk with your campers during the invitation unless they ask a specific question.
  - 12) LEAD your group to pray for the unsaved in the camp and especially in your group.

- 13) If transportation is needed, notify the Camp Director to make plans to transport patient while maintaining enough supervision for your Campers. The transporting vehicle must take the Transport Safety Bag in vehicle located in the Nurses' Station. (STATE LAW)

#### **IV. CAMPER PROBLEMS:**

- 1) Handle problems which you observe in behavior immediately. If you require assistance, include your Church Leader, Dean of Campers, or Director.
- 2) Personal problems which the campers bring to you need to be taken seriously and discussed with them as soon as practical. However, you will not be able to handle all of their problems and may need to refer them to parental or pastoral care.
- 3) If further disciplinary actions are needed, consult with Camp Director.

#### **ILLNESS OR INJURY:**

- 1) Camper must be taken to the CHO in the First Aid Station.
- 2) If situation warrants, CHO will contact the Camp Director and Camp Manager if necessary.
- 3) If transportation is needed, notify the Camp Director to make plans to transport patient while maintaining enough supervision for your Campers. The transporting vehicle must take the Transport Safety Bag in vehicle located in the Nurses' Station. (STATE LAW)
- 4) CHO, Group Leader or LSCRC staff will make all calls to parents, doctors, or hospitals as required. Depending on the nature of the illness/injury the parent/guardian may be asked to meet their child at the doctor/hospital. Try and remain calm when calling parents. Please make yourself aware of HIPAA Laws especially relating to the "Need to Know" aspect.

#### **V. CABIN CLEANING & CHECK OUT:**

Turn-around times are critical this year! Remember your check-in/check-out times. Same day as your departure, another camp will be arriving. During those few hours in between camps, Latham Springs staff will have to flip the whole camp for the next group. Please leave your cabins clean to help with this process.

- Staff will go through cabins, lodges and public restrooms daily to empty trash and fill paper towel and toilet paper dispensers.
- Two bottles of pink soap (heavily diluted) and a roll of paper towels will be available in each cabin.
- Encourage your campers to dispose of their trash properly and to keep the grounds clean.

#### **Check-out day:**

1. Each cabin should be cleaned and checked by either a representative of the camp committee or the Camp Director to ensure that cabin has been inspected before departure.
2. Please see that all campers and camper belongings are out of the building.
3. Please ask all campers to remain out of the buildings once they are use rest rooms at the auditorium.
4. Church group(s) who depart(s) without cleaning their building(s) may be assessed a cleaning fee.

# Child Protection Training

Course Approved NO. YCO-0001

**The purpose of this training course is to provide all staff, volunteers, counselors and church leadership with a clear understanding of how to recognize, reduce, prevent and report suspected sexual abuse or molestation while at camp.**

This course is divided into four sections. The sections are as follows:

- A. The Definitions and Effects of Sexual Abuse and Child Molestation
- B. Typical Patterns and Methods of Operation of a Child Molester
- C. Signs, Symptoms and Reporting of Suspected Sexual Abuse
- D. Recommended procedures to reduce, prevent, and report suspected abuse or molestation of campers.

## **Section A: The Definitions and Effects of Sexual Abuse and Child Molestation**

**The purpose of Section A is to clearly define what constitutes sexual abuse and child molestation. The section will also identify the different types of abuse as well as the effects of child abuse.**

The precise legal definition of child sexual abuse or molestation varies from state to state, but in general includes any form of sexual contact or exploitation in which a minor is being used for the sexual stimulation of the perpetrator. In this training the terms molestation and sexual abuse will be used interchangeably.

(From Texas Administrative Code) Title 25, Part 1, Chapter 1, Subchapter Q, Rule 1.203

(4) Child—A person under 18 years of age who is not and has not been married or who has not had the disabilities of minority removed for general purposes.

(22) Sexual abuse—Any sexual activity, including any involuntary or nonconsensual sexual conduct that would constitute an offense under the Penal Code 21.08 (indecent exposure) or Chapter 22 (assaulting offenses), involving a facility and a patient or client. Sexual activity includes but is not limited to kissing, hugging, stroking, or fondling with sexual intent; oral sex or sexual intercourse; and request, suggestion or encouragement for the performance of sex.

Child sexual abuse may be violent or non-violent. All child sexual abuse is an exploitation of a child's vulnerability and powerlessness in which the abuser is fully responsible for the actions.

Child sexual abuse or molestation is CRIMINAL BEHAVIOR that involves children in sexual behaviors for which they are not personally, socially, and developmentally ready.

### *Types of Abuse*

- **Physical Abuse**—includes bodily harm or injury caused by blows or harmful substances, as well as exposure to unreasonable risk of harm or injury.
- **Emotional and Psychological Maltreatment**—attacks a child’s self-image, often through labels and ridicule.
- **Neglect**—is the failure to provide for a child’s physical, medical, emotional, and safety needs.
- **Sexual Abuse**—can occur through showing and communicating as well as through touching. Not only forced activity, but also permission and persuasion, can be abusive.
- Non-touching sexual abuse offenses include:
  1. Indecent exposure / exhibitionism
  2. Exposing children to pornographic material
  3. Deliberately exposing a child to the act of sexual intercourse
  4. Masturbation in front of a child
- Touching sexual offenses include:
  1. Fondling
  2. Making a child touch an adult’s sexual organ(s)
  3. Any penetration of a child’s vagina or anus by an object that doesn’t have a medical purpose
- **Other types of abuse**—include abandonment and threats of harm.

*(From Church Mutual Safety Tips on a Sensitive Subject: Child Sexual Abuse)*

### *Effects of Child Abuse*

“Studies have shown that abuse and neglect may negatively affect children’s physical, cognitive, emotional, and social development, resulting in aggressiveness, anxiousness, the inability to control emotions, depression, and learning difficulties, among other problems.” (AWANA Child Protection Policy Training)

Victims of child abuse often suffer from:

- Inability to trust, which leads to problems in relationships
- Feelings of guilt, anger, and low self-esteem
- A tendency toward alcohol and drug abuse
- Eating disorders
- Suicidal thoughts and suicide

These effects continue long after the abuse has stopped, even into adulthood.

Victims of child abuse also tend to:

- Engage in criminal activity at a higher rate than the general population.
- More likely than others to engage in risky sexual behavior.

However, the greatest loss to society comes from lost innocence, lost joy, lost hope, and lost potential. In the life of a child, it may mean loss of faith and trust in God.

## **Section B: Typical Patterns and Methods of Operation of Child Molesters**

**The purpose of Section B is to identify typical patterns and methods of operation of child abusers.**

A child molester is described as a person older than the victim, male or female, which experiences any type of sexual act with a child. The majority of child molesters are male.

When young children are close in age (no more than a 3 year age span) sexual contact is called camper-to-camper (peer-to-peer) contact. In many cases this is normal childhood behavior, particularly in younger children. In other cases, especially with more than a 3 year age difference or children that are pubescent, molestation may be involved. Any case of sexual contact, regardless of the age of the child, is to be reported to the licensed youth camp operator (camp manager) immediately. He/she will make the determination of the appropriate action to take.

Who is the typical child molester?

Often camps, churches and communities fall victim to the “Stranger Danger” by believing that molesters are “dirty old men” or “strangers in trench coats.” These stereotypes are not only inaccurate but dangerous as they allow a false sense of security. Often the public becomes obsessed with the stereotype while never suspecting the real molester may be a respected member of the church, camp staff or community.

There are two types of child molesters, **preferential offenders** and **situational offenders**.

### *Preferential Offenders*

- Have a particular sexual preference for children of a particular age, gender or a child with specific physical characteristics.
- Extremely dangerous because of their predatory nature.
- Proactive in seeking their victim and aggressively engage in bold and repeated attempts to molest a child.
- Invest significant amounts of time, energy, money and other resources to fulfill their sexual desires.

- Have excessive interest in children, seek access to children, and frequently move to avoid capture.
- May maintain pornographic collections and photograph children and/or their victims.

This type of offender may appear to be the ideal children's/youth worker. They enjoy children and socialize well among children. One preferential offender may have hundreds of victims in a lifetime.

**The best way to deter this kind of offender is to develop an environment that puts the offender, rather than the child at risk. A thorough screening program, proper supervision and accountability will discourage this type of offender.**

### *Situational Sex Offenders*

Far more situational offenders exist in society than preferential sex offenders but they have fewer victims.

Situational Offenders:

- Are opportunists engaging in misconduct when the opportunity presents itself.
- Are indiscriminate concerning whom they molest and act completely on impulse.

An example of a situational sex offender would be a youth worker who plans various activities for his youth. After the meeting he takes several of the students home following the activity. The last person to be dropped off is a young girl who comes from a dysfunctional family. A pattern develops where the offender and the girl sit in the car and talk for an extended period of time. One thing leads to another, the opportunity presents itself and the youth worker has a sexual relationship with the girl.

**To reduce the risk of situational molestation camps must create an environment of accountability. Screening and supervision are the two key strategies to establish such an environment and, in turn reduce the risk of sexual molestation.**

### *Methods of Operation*

Sexual predators could employ any of the following methods or strategies to gain access to a child.

- **Seduction**—The molester usually is known to the child. He spends time with the child and normally is trusted by the child. The initial contact with the child is non- sexual but over time advances to be sexual in nature. Molesters may use pornography to lower the sexual inhibitions of the child. The abuser may also use a technique called “grooming”.
- “Grooming is a gradual and subtle process, and one that has extraordinary power, desensitizing the victim to increasingly inappropriate behavior while rewarding the victim for tolerance of that behavior.” (Where Wolves Wear Shepherds' Clothing: Helping Women

Survive Sexual Abuse, Diana Garland, Ph.D. LMSW-APC, ACSW, and Sheri Ferguson, LCSW, LMFT)

- **Trickery**—Molesters are creative in using the natural desires of a child. Children see adults as authority figures; children are naturally curious and need attention and affection. A molester may use these natural tendencies to trick the child into a situation where these molestations can occur. Molesters will isolate a child from adult supervision where they will be more vulnerable to molestation.
- **Force**—Usually there is little a child can do to resist force. When force is used the child rarely is acquainted with the molester.
- **Secrecy** is the common thread in these methods of operation. Secrecy is maintained by several methods. They include but are not limited to:
  - Bribery—This could include gifts, animals or any favors that interest a child.
  - Blame—The molester tells the child they are at fault for what has happened.
  - Embarrassment—Children realize that what has taken place is wrong.
  - Loss of Affection—Often the molester is a person that is loved by the child.
  - Displaced Responsibility—The child blames themselves for the molestation.
  - Threats—Molester will threaten the child or someone in the child's family with physical harm.

#### *Signs to Watch For*

- Workers who spend an exorbitant amount of time with kids
- Adults who prefer the company of children to adult relationships
- Adult who singles out one child for "special" attention
- Seems to spend money on other people's kids
- Owns children's books, games, and toys even though he/she has no children

## **Section C: Signs, Symptoms and Reporting of Suspected Sexual Abuse**

**This section will teach warning signs and symptoms of sexual abuse or child molestation, recognition of these signs as well as recommended methods of reporting suspected abuse.**

Sometimes there may be signs of sexual abuse even if a child or youth does not speak to you about it. There are many symptoms to look for that may indicate that abuse has occurred, especially if more than one symptom is present.

Listed below are some symptoms that may present themselves in a child or youth that is being abused sexually or otherwise. Many times an individual, that does not know the child well, may not recognize changes in the child's behavioral

patterns. People that spend time on a regular basis with the particular child may more easily recognize the changes. Often times a child may not report abuse; therefore, we must look for symptoms. Children who have been abused may exhibit several symptoms or no symptoms. Pay attention when a child exhibits these symptoms:

### *Symptoms/Signs of Sexual Abuse*

- Inappropriate interest in or knowledge of sexual acts
- Seductiveness
- Avoidance of things related to sexuality, or rejection of own genitals or bodies
- Nightmares and bed wetting
- Drastic changes in appetite
- Over compliance or excessive aggression
- Fear of a particular person or family member
- Withdrawal, secretiveness, or depression
- Suicidal behavior
- Eating disorders
- Self-injury
- Torn, stained, or bloody underwear
- Pain or itching in the genital area
- Bruises or bleeding of the genitalia
- Inappropriate sex play with peers or toys
- Fascination with pornography
- Fear of touch
- Abuse of animals
- Masturbation in public
- Apprehension when sexual abuse is mentioned
- Cross dressing

This list of symptoms may be a serious indicator of sexual abuse and a person noticing these symptoms should pay particular attention to a child that exhibits them. The presence of any of these behaviors may indicate that sexual abuse has occurred. These behaviors are not, in and of themselves, conclusive evidence that a child has been abused.

### **Did You Know?**

- Most children are abused by people they know.
- Many people are afraid of reporting sexual abuse.
- Most sexual abuse is probably never reported to authorities.
- Possibly one in three cases of child sexual abuse is not remembered by the victim later in adulthood. The younger the child at the time of the abuse and the closer the relationship to the abuser, the less likely the individual will remember the abuse as an adult.
- Other children are often the perpetrators of child abuse, especially if they have been abused themselves.

### *Other Signs to Watch For*

- Workers who spend an exorbitant amount of time with kids
- Adults who prefer the company of children to adult relationships
- Adult who singles out one child for “special” attention
- Seems to spend money on other people’s kids
- Owns children’s books, games, and toys even though he/she has no children
- Spends a lot of time on the internet/computer
- Shuns accountability

### **LOOK FOR PATTERNS OF BEHAVIOR**

### *How to Report Abuse While at Camp*

- Remove child from immediate danger, call “911” only if an extreme emergency exists
- Immediately report abuse to the Licensed Youth Camp Operator (Camp Manager)
- **The Licensed Youth Camp Operator (Camp Manager) must call the Texas Department of Health Services State:**

**Phone: 512-834-6773 ext. 2305**

**Fax: 512-834-6707**

- Complete an Incident Report form, gathering as many details as possible.
- **Church and parental notification will be the responsibility of the Licensed Youth Camp Operator.**

**When reporting a case of suspected abuse, please remember the sensitive nature of this type of report. Whenever possible, please maintain the highest level of confidentiality.**

Many people don't know where to report suspected child abuse. Some individuals are afraid to report child abuse because of possible repercussions to the child or to themselves. **State law requires all citizens to report suspected abuse.**

You probably will be relieved to know that if you report child abuse, it is unlikely that the child will be removed from their home immediately. The authorities will investigate to find out if your suspicions are correct. If child abuse is confirmed, the child would then be removed from the home and placed in safe care.

## **Section D: Recommended Rules and Procedures for Youth Camps**

**In this section we will teach (1) how to avoid being accused of sexual abuse or child molestation, (2) prevention of camper on camper abuse, (3) reporting**

**sexual abuse or molestation, and (4) the need to minimize one on one isolated encounters between adult and minors, or between two minors.**

Perhaps the greatest challenge to persons choosing to work with children and youth in Christian camping is when one suspects sexual abuse or child molestation or when one confides that they have been abused or molested.

## **1. How to Avoid Being Accused of Sexual Abuse or Child Molestation**

*Barriers to abuse within Christian camping*

The following policies are primarily for the protection of campers; however, they also serve to protect adult counselors from false accusations of abuse.

- **Two-deep counselor supervision.** No adult will be allowed to be alone with a camper in an isolated place. In situations that require personal conferences, the meeting is to be conducted in view of other adults.
- **No child or teenager is to sit in the lap of an adult.** No adult is to allow a child or teenager to sit in his/her lap or lie in his/her bed. The only exception would be the parent of the child.
- **No frontal hugs.** From time to time, an adult may feel at a child needs a hug, in order to support or comfort the child. The adult must use a shoulder to shoulder hug.
- **Respect of privacy.** Adults must respect the privacy of campers in situations such as changing clothes and taking showers. An adult would only intrude to the extent that the health and or safety of the camper would be in question. In the case of safety, one adult may enter the private area, but whenever possible two adults should be present. Campers must also respect the privacy of the adults in these situations. Therefore, it is not permissible for campers or adults to move about in the housing area unclothed.
- **Sleeping accommodations.** Adults should sleep in an area where the highest level of supervision is possible and should not isolate themselves from general view. When wilderness camping, adults are prohibited from sleeping in pup-type tents with campers unless it is a parent and his or her child. Larger tent housing would require at least two adult counselors following the same procedures as regular camp housing.
- **Appropriate attire.** Adults will at all times be dressed modestly. Clothes such as swimsuits, shorts, and tops are not to be revealing or in anyway draw attention to the breasts, buttocks or genital area.
- **Rough housing or hazing is prohibited.** An adult will not wrestle, tickle, or in anyway engage a child or teenager in an activity where the adult's hands might come in contact with the breasts or genital area of the camper. The adult must be particularly careful about physical contact with campers while in the swimming area. No counselor or camper is to participate in any kind of hazing or initiation activity.

*NOTE: Adult counselors must monitor each other, not to accuse, but to protect each other in case of an allegation.*

## 2. How to Prevent Camper-on-Camper Abuse

- **Campers-Counselor assignment.** Campers assigned to a counselor should be accounted for at all times.
- **Campers in sleeping areas.** Campers will not be permitted to be in the sleeping area of any camper of the opposite sex.
- **Camper visibility.** No camper is allowed to be alone with another camper out of sight of an adult or other campers.
- **Sleeping assignments.** Campers are to sleep in his/her assigned bed. Campers are not to sleep together. Beds are not to be arranged in such a way as to make supervision by the counselor impossible.
- **Adult supervision.** Adults are to supervise all activities of the camper, both organized and unorganized. The camper is not allowed to enter into any bullying activities.
- **Supervision during swim activities.** Close supervision by adults during all swim activities is mandatory. Close attention should be paid to the activities of couples in the swim area.
- **Older campers.** Older campers who tend to spend a great deal of time with younger campers should be encouraged to engage in activities with their appropriate peer group.
- **Reporting by a camper.** When a camper reports a situation that makes him/her uncomfortable, the counselor must take action to protect the camper.

## 3. Reporting of Sexual Abuse and Molestation at Camp

The adult who has witnessed or who becomes aware of any form of abuse of a camper must inform the Licensed Youth Camp Operator as soon as possible.

- **Investigation of allegations.** Counselors are not to investigate the allegation. Counselors are to report the information to the Licensed Youth Camp Operator as soon as possible.
- **Reporting.** The counselor is to turn into the Licensed Youth Camp Operator, within 24 hours, a written report of how he/she gained knowledge of the allegation.
- **State reporting.** The Licensed Youth Camp Operator is to report by phone, followed by fax, to the **Department of State Health Services, Environmental Health Group**

**Phone: 512-834-6773 ext. 2305**

**Fax: 512-834-6707**

**If the abuse happens on the campus of the TX Youth Camp it must also be reported (by the Licensed Youth Camp Operator) to the Office of General Counsel Investigation Section at the following numbers:**

**Phone: 512-491-4045**

**Weekend Number: 512-833-6497**

**Remember, when a child or teenager confides in you, allow him/her to feel that you care, are listening, and will do what is necessary to be of help. It helps to sit at the minor's eye-level, keeping your conversation from being overheard by others. It is not your role to question or determine the facts or to suggest that he/she was or was not abused. Let the student know how much you admire the courage and confidence it took to share what has happened.**

# Child Protection Policy Exam

## *Section A: True / False*

1. \_\_\_\_\_ Sexual abuse can occur through methods without touching.
2. \_\_\_\_\_ Abuse and neglect may negatively affect a child's emotional and social development among other problems.
3. \_\_\_\_\_ Exposing a child to porno-graphic material is not considered abuse.
4. \_\_\_\_\_ Not only forced activity, but persuasion can be considered abusive.
5. \_\_\_\_\_ Victims of child abuse often suffer from fear, guilt and anger.
6. \_\_\_\_\_ "Child" is defined as anyone, unmarried under the age of 16.
7. \_\_\_\_\_ Young victims of child abuse may feel bad at the time, but usually get over it quickly and have no trouble later in life.

## **Section B:**

8. Situational offenders are:
  - a. Opportunists
  - b. Exhibitionists
  - c. Chauvinistic
9. Molesters and child abusers are usually:
  - a. Acquainted with their victim
  - b. Strangers
  - c. Over 50 years of age
10. Molesters can "groom" a child by:
  - a. Threatening the child
  - b. Offering gifts or favors to gain the trust of the child
  - c. Forcing the child to participate in sexual conduct
11. A molester tries to insure secrecy by:
  - a. Accepting responsibility for his actions
  - b. Threats, bribery or blame
  - c. Encouraging the child to discuss his fears with trusted friends

12. An offender often:
- Notifies the church or camp that he has offended in the past
  - Asks for accountability from peers for abusive behavior
  - Seeks employment in child related situations

13. Statistics indicate most molesters are:
- Male
  - Female
  - Female cousins

### **Section C:**

14. Which of the following behaviors is not a sign of abuse?
- Fear of a certain person or family member
  - Has difficulty in walking or sitting
  - Is a top athlete
15. Identify which action “does not” indicate a form of sexual abuse:
- Allowing a child to view pornography
  - Touching the chest, stomach, genital area, buttocks or upper legs.
  - Shoulder to shoulder hugs
16. You are the sponsor for a child that tells you that she has been forced to watch pornographic movies by an adult, should you report this?
- Yes, immediately
  - No, because suspected abuse did not occur at camp
  - Yes, but only after you have investigated to confirm that the child’s story is true
17. When reporting sexual abuse, you must report incidents even if you cannot confirm the report of abuse is true.
- True
  - False
  - Only if you are reasonably sure it is true
18. Which of the following would not be considered a warning sign of a potential abuser?
- Adults who single out one child for “special” attention
  - Adult who like to work with youth
  - Owns children’s books, toys and games even though he/she has no children
19. When abuse is strongly suspected, a camp counselor should:
- Interview everyone in the cabin to see if they agree with your suspicions

- b. Maintain the highest level of confidentiality while reporting to the camp manager
- c. Ignore your suspicions and don't get involved

### **Section D:**

20. Which location is most appropriate to meet a camper for counseling?
- a. A semi-private area easily seen by others
  - b. Alone in the church van
  - c. Behind the worship center in the dark
21. Which example is not an example of a camper's privacy?
- a. Watching campers change clothes
  - b. Walking with a camper to the worship center
  - c. Laying in the bed of a camper
22. When reporting sexual abuse at camp what is your responsibility?
- a. Notify your Licensed Youth Camp Operator (Camp Manager)
  - b. Get help even if you have to leave the camper in danger
  - c. Investigate allegations
23. Which are inappropriate behaviors?
- a. Wrestling and tickling
  - b. Full frontal hugs or waist hugging
  - c. All of the above
24. Close supervision by adults during all swim activities is
- a. Requested
  - b. Mandatory
  - c. A good idea
25. What is the purpose of this training?
- a. Need to fill a time slot
  - b. Safety and protection of our children, churches, and camp
  - c. To discourage working with children and youth

# CERTIFICATE OF COMPLETION

Course Title: *Child Protection Training*

Training Course  
Approval Number: YC06-0001

NAME OF RECIPIENT

Date of Completion: \_\_\_\_\_  
Certificate valid for 2 years

Score: \_\_\_\_\_

COURSE FACILITATOR: \_\_\_\_\_  
Signature

\_\_\_\_\_  
Date

\_\_\_\_\_  
Church or Organization

\_\_\_\_\_  
Position

This certificate is to be kept on file at the Camp or Conference Center you are attending for the duration of your stay.
